## DETAILED ACTION

### *Election/Restrictions*

1. Claim 2 is allowable. The restriction requirement of claim 6, as set forth in the Office action mailed on 29 August 2007, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 6, directed to an alternate species is no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

2. In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### *Allowable Subject Matter*

3. Claims 2-6 are allowed.

4. The following is an examiner's statement of reasons for allowance: While it is known in the prior art to provide an image sensing unit with a distance measuring unit

which comprises and image sensing element, a distance measuring unit to measure distances to a plurality of points, a determination unit to determine a relationship between a distance and a drive amount of a photographing optical system and a control unit to control the focal position of the photographing optical system on the basis of a distance measuring result and the determined relationship, the prior art does not teach or fairly suggest an image sensing apparatus as claimed wherein the distance measuring unit which comprises a distance calculation unit and a setting unit which sets a highest-contrast point as a first point and a point corresponding to the nearest distance to the object calculated by the distance calculation unit as a second point.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
